

Wood Mastic Powder Filler

Resistant Powder Filler for wood

High-quality Powder Filler created for wood repair purposes. Easily mixable with water. The filler is very suitable for hard-wood flooring that undergoes brushing methods. Powder Filler will stay in the wood and is very resistant towards general wear and tear.

Powder Filler is available in two types: a normal-drying and a quick-drying version.

Wood Mastic Powder Fillers are *green products* made from mineral components and are therefore safe to use.

Powder Filler Colours
